ALHANY, Feb. 1.—Many bills affecting is a streams that dow across the constant and game are before legislature. Naturally the most outstanding proposed legislature is the return to the buck law, a station is the return to the buck law, a bill to this effect having been introduced by Assemblyman Thayer and Senator links, and there is another story.

In the summer of 1899, about the proposed in started from Phenix on a want keet gains until about the

by Assemblyman Thayer and Senator Pitcher.
The Selils are not the same, however. The Thayer bill puts back the buck law. It cuts fitteen days off the beginning of the present Adirondack season, making the open season from October 15 to November 15 to month instead of a month soil a half. It makes the open season in Coumber bis, Dutchess and Reass-laer counties united form with the Adirondacks and makes the open season for the counties of Uster. Sullivan and Orange the same as heretefore. The manner of taking is practically the same and the only new feature is that before a deer can be cut up for distribution or transportation the carcass must be seen by a game protector or forest raiser. That is for the purpose of determining sex. The limit is one buck.

The Pitcher bill also is a buck law bill, but it closes the deer season in the Adirondacks until 1925. The new open season would be from November 1 to November 1. It makes the deer limit two instead of one as under the Thayer bill. The manner of taking remains the same as under the present law. It makes a penalty for violation of the law punishable by a fine of not more than 1500 or imprisonment for not more than 1500 or imprisonment for the more than alx months. The bill size of them the other of the more than alx months. The bill size of them wonder the present law.

Where to Take Rabbits.

stock of these game birds in their values in order to insure proper attention Chief Legge mays that applications for pheasant eggs must be received by the Conservation Commission at Albany not later than March I. Eggs will be assigned in the order in which applications are received. For the benefit of those who have not yet enjoyed the pleasure of raising young pheasants an attractive illustrated booklet accompanies each consignment of eggs, containing full instructions for the hatching and rearing of the birds, which is an easy undertaining. Chief Legge states that whereas, in the past, most of the applications used to come from sportsmen, farmers are now showing great interest in the hatching of pheasants, as they find

Angling License Fee for Residents I noticed some suggestions by C. P. I and John Myles Flynn on the subject license fee between \$1.10 and \$1.65 fresh water fishermen in New York S I heartily indorse their suggestions at I heartly indorse their susseman of the believe if every resident fisherman of the State would throw their shoulders to the bal that Dorff and Flynn has started rolling a great deal of good would come of such action THOMAS J McALEER. 118 Ainsile street, Brooklyn, Feb. 1

The New Contributor Asks a Question. The New Contributor Asks a Question I cannot imagine what a sprat loon is, but then I have not had as much duck shooting experience as "Tamarack". "Virginius" is afraid to contradict him; he says "Tamarack" knows everything. I am not the least afraid of him, and I know the old man is right when he calls "Stillwater's" duck a she whister. Eay, what is a sprat loon? VIRGINIUS 2D. (Age I week.)

A Longing for Brook Trout Time. A Longing for Brook Trout Time. I am longing for brook front time. To get out and enjoy the woods, flowers, birds and rain. I want to get in a brook with a good rain and get my system saturated, full of water, outside and in (about the only fine thing you rain get full of now). I want to lie down in the hay mow and hear the rain strike the old warped shingles. F.A.S. Hartford, Conn. Feb. 1.

Two more years of the present deer law (permitting the killing of an animal of either sex) will surely finish the deer. I hope the abominable law will be hanged. THE SUN has done much to in sure a desirable cond.

Passenger Pigeon Roosting in 1890. I have often read in the Rod and Gun column, as well as in the various sporting magazines, articles on the disappearance of that bird so plentful years ago, the passenger pigeon, Many times have I had in mind to write that which I am about to relate to you now. I am, nowever, what my wife is pleased to call a "manana gentleman."
